

**This map is a correction of the Preferred Alternative map included in the 1999  
Final Grand Kankakee Marsh National Wildlife Refuge Environmental Assessment**

In the 1999 Grand Kankakee Marsh Environmental Assessment, Figure 12, Alternative 5 (Hybrid Grassland, Wetland, and T&E Scenario) erroneously included Focal Area 11 on the map. To be consistent with Table 2.4 that is associated with that figure, the map should not include Focal Area 11. A similar map error of including Focal Area 11 was made on Figure 10, Alternative 3 (Grassland Scenario). Again the associated table (Table 2.2) is correct. The following map has been corrected to depict the correct Focal Areas included in the Preferred Alternative, Alternative 5.

# Proposed Grand Kankakee Marsh NWR
